## REAL BASEBALL OVER WEEK-END

JOHNSON CITY-ONEONTA SERIES OPENS TOMORROW AT JOHNSON FIELD.

Carbondale Here for Game This Afternoon — Cubs' Series with Binghamton Imperials for \$2,000 Purse Begins at Neahwa Park Monday, with Double Bill — International League Nine Here Tuesday.

Sunday will be a big day for the Cubs and Oneonta baseball fans generally, for on this day the first game of the big series with the Endicott-Johnson Athletic Association will take place at Johnson Field, Johnson City. Manager Weidman is making arrangements to have a sizable delegation of Oneontans present at the game to cheer on the Cubs and the outcome of the contest will be awaited with great interest. The game will be called at 3 o'clock.

"Bill" Fisher, manager of the E. J. A. A. team, has decided to use the following in his infielders: Bishop, I. Hanley, Murphy, Tiffany, Hotchkiss, VanDorick, Dobson Vann, I. Hanley; Outfielders: Sweet, Smith, J. Hanley; Catchers: Fisher and Haines; Pitchers: Weingartner and Donahue.

Manager Weidman of the Cubs will use the following men: Infielders: Dibble, Gardner, B. Weeks, Youngs, Duba and Sullivan. Catchers: Boylan and Tryon; Pitchers: Davis, Kibbe, Fitzpatrick, Reynolds, Outfielders: F. Weeks, Brown, Dempsey and Jones. The local diamond will be kept hot over the week-end with a series of

games that promises to give Oneontans some real diamond treats. The Carbondale nine will try to administer a defeat to the Cubs this afternoon at Neahwa park. The Cubs no doubt will put their best lineup in the field in order to get a good work-out for the Johnson City game tomorrow. The game will be called at 4:15.

Monday will mark the beginning of another big series this time for a purse of \$2,000. The Binghamton Imperials meet the Cubs on the Oneonta field on Tuesday at 10:30 and 2:30 o'clock. Fans are eagerly waiting for the first battle of the series in order to get an idea of the relative strength of the two sides.

Next Tuesday at 4:15 p. m., the Reading International league team will be the Cubs' opponents. The Reading team is going fine at the present time and has on its lineup three great sluggers. Brower, first baseman, is the Babe Ruth of the International league, having made 15 home runs so far this season. Konick, the league's best catcher, and Silent John Hummel, Reading's manager, have made over 20 home runs between them during this season. All three of these great sluggers will be seen in action at Neahwa park Tuesday.

**Says an Oneonta Fan:**  
According to last evening's Binghamton Press, what will happen to the Oneonta pitchers in the Cub-E. J. A. A. game in that city Sunday, is much like what happened to the fellow who went fishing and did not get the fish. The article states that "if" Davis is not a top-notch pitcher he is liable to be rudely treated by the Fisher clan, and also that Johnson City is going to pile up a million runs "if" they can.

If they do, all right; we are not going to prophesy as to what will happen, but we have doubts of their ability to pile up runs to more than one cipher. "If" they do, all right, but Oneontans have never yet had to make "ifs" about the ability of their nine.

## MARKET STRONGER AND MORE ACTIVE

Ease of Call Money and Favorable Industrial Advances Stimulate the List

New York, July 2.—The stock market was stronger and more active today than at any previous session of the week, thereby upsetting the calculations of those who had anticipated further dullness because of the approaching protracted recess. Unexpected ease of call money, more industrial advances, and signs of a moderate re-investment movement, were foremost among the factors that stimulated the list to highest levels of the week after an early period of hesitation.

Demand loans opened at ten percent, that figure also applying to borrowings extending over the triple holiday. Later, when most demands had been met, plenty of money was available at 8 percent.

Outstanding features of the day were steel, oils, motors, and their accessories. Shipments displayed consistent strength, but rails made little upward progress until towards the close, when junior issues, such as New Haven and Southern railway, were in demand.

Food, tobacco, tea and textile shares had their intervals of prominence and strength. Vanadium Steel, Mexican Petroleum, Baldwin Locomotive, and United States Rubber were among individual stocks to show substantial improvement at the end.

Distinct firmness was shown by the bond market. Old U. S. bonds were unchanged on call.

### HARTWICK TO HAVE NEW SCHOOL

Proposal Carried Overwhelmingly at Special Meeting of Voters Thursday Evening.

Hartwick, July 2. — At the special meeting of voters called at the school building last evening for the purpose of passing upon four resolutions bearing on the purchase of a new site and the erection of a new building, three of the four resolutions were passed. The first resolution, to annul the resolution passed in March, 1917, appropriating \$22,000 for a new building, and the second resolution for an appropriation of \$2,600 for the purchase of a lot from the Curry estate on North street as a new site, was passed by a majority of 24 votes. It is not likely that the building will be erected before next year, but there is every assurance now that Hartwick will have a school of which the townspeople need not be ashamed.

The third resolution, for an appropriation of \$10,990, were almost unanimously passed. A crowd of nearly 150 filled the room, and 107 voters were tallied.

The fourth resolution, for an appropriation of \$1,500 to purchase the plot at the head of Mill street on the Charles Phillips property, was defeated. The fourth resolution, for an

### Firework and the Fourth

Whoever has within him, despite the  
lengthened record of his years, the  
real heart of a boy, will sympathize  
with Young America in his desire for  
a more or less noisy celebration of the  
Fourth of July. He remembers his  
own delight in the red or yellow fire-  
cracker which once was about all  
there was of his celebration; he re-  
calls the coveted torpedo, that little  
bag of sand mixed with a minimum  
of gunpowder which was his delight,  
with a great deal of arm force to ex-  
plode; he has not forgotten the oc-  
casional rocket and torpedo, per-  
chance even the pin-wheels, which  
were added attractions, and if spirit  
and face have not grown wrinkled to-  
gether, he is not averse to a fair  
amount of celebration on the part of  
the boys of today. It is for this rea-  
son, doubtless, that civic authorities  
let down the bars a little on the Day  
We Celebrate.

But if there is considerable relaxa-  
tion of regulations on the Day of In-  
dependence, there should also be con-  
sideration by those who celebrate. In  
the midst of their enjoyment, they  
should remember that there are many  
timid persons, many aged and nerv-  
ous, whom necessity brings upon the  
streets, and there should be no wan-  
ton acts which add to a discomfort  
doubtless in any event considerable.  
The explosion of crackers or torpedoes  
immediately before or behind an un-  
suspecting man, woman or child may  
be merely a bit of fun to the perpetu-  
ator, but is not always appreciated by  
the victim. As for the horse, he has  
so largely disappeared, that it perhaps  
is less necessary to note the danger  
of runaway, though this danger is  
still considerable. Fortunately, on July  
4, as on other days, the auto can be  
relied upon to stand without hitching.

Another thing not to be forgotten  
is the danger of fire. Crackers and  
other noise makers shot off should  
always be exploded in places where  
there is no danger of starting a blaze  
which may do infinite damage. The  
insurance companies take cognizance  
of this, and always their managers  
breathe more freely when the big hol-  
iday is over. Parents, therefore, should  
snip upon the younger folk a judi-  
ciously located if noisy revelry, whether  
on night or day. It may not be realiz-  
ed, but when one who carries fire in-  
surance grumbles at the rate, a part  
of which seems to him excess, is the  
added hazard of Fourth of July cele-  
brations.

And there is the personal danger.  
There are many persons who all their  
days will carry in mutilated fingers,  
or in injuries much more serious, re-  
minders of some such celebration. The  
number should not be increased this  
year.

There are these three things, then,  
to note in the midst of our festivity:  
Consideration for others, the possi-  
bility of fire and the danger of personal  
injury. Given careful attention, and a  
celebration may be made sane and  
safe without being exactly noiseless or  
mundane.

**Camouflaged Intoxicants**  
There is a considerable number of  
bottled preparations, sold ostensibly  
as medicines, which in reality are  
merely camouflaged intoxicants. While  
in a limited—generally a very limited—  
number of cases they may be of  
physical benefit, that is not the rea-  
son for which they generally are tak-  
en. It is for the 10 to 20 per cent of  
alcohol which they contain; and so  
anxious are the thirst ones for this  
sort of spiritual exhilaration, that they  
overlook the peculiarly bitter and  
nauseating general taste of the com-  
pound.

One of these is Horke Vio, which  
has apparently been the cause of most  
of the arrests for drunkenness which  
have been made in Oneonta during  
the past month. Earlier, Jamaica  
ginger and other extracts having a  
liberal percentage of alcohol as a  
vehicle were used, but that was before  
the superlative demerits of Horke  
Vio were generally known. Its dis-  
covery, however, has relegated other  
substitutes for whiskey to the back-  
ground, and it is understood that  
many cases of the sort have been  
brought to this city and sold, not as  
medicine and at drug stores but by  
methods less direct and less above-  
board.

As was not in The Star of yester-  
day, District Attorney O'Connor of  
Delaware county has taken cognizance  
of the situation in Hobart, and pro-  
poses to test out the legality of its  
sale in that place. It is a proceeding  
which will be watched with interest,  
and citizens generally will hope that  
he will win out. At any rate it would  
seem that there should be some  
method of prohibiting the sale of an  
alleged medicine which has so potent  
a kick in it.

### Cooperative Store To Move.

The rooms at 21 Broad street, for-  
merly occupied by the Oneonta Sales  
company, which they recently vacat-  
ed, have been leased by the Coopera-  
tive Store management and will prob-  
ably be occupied by them some time  
during the first of August.

## COMMENTS OF THE PRESS

### The Interchurch Drive.

The collapse of the interchurch drive  
is regrettable, but it can hardly be  
called surprising. If any word has  
ever become better hated in these  
United States than the word "drive,"  
we cannot recall it. To be sure, the  
colleges generally succeeded in their  
recent drives; but they were work-  
ing upon a definite body of graduates,  
easily catalogued and approached  
and owing definite obligations.  
Does the failure carry any signifi-  
cance of a decline in religious power  
and influence? We think not. The  
interchurch ideal is a splendid one,  
but, like internationalism, it is still,  
to most people, too vague in its pur-  
pose, and too loose in its bonds to have  
a practical drawing power. Union of  
spirit is certain to grow with the  
years, but it is likely to come gradu-  
ally and in the heart of man first and  
in outward organization thereafter.—  
[New York Tribune.]

### Why Not Quail?

It has always been a common be-  
lief among pupils in the schools that  
the teachers have an easy time—short  
hours, long vacations, nothing to do  
but sit down and hear recitations, "or  
everything." Why don't more of the  
youngsters have themselves made fit  
for the enjoyment of the easy time?—  
[Albany Journal.]

### We'd Have To Hear It.

Lloyd George, we are told, sang a  
duet with Krasson, the Soviet envoy.  
But we've heard many a duet in which  
there was no harmony whatever.—  
[New York World.]

### San Francisco Hospitality.

San Francisco hospitality and the  
consideration of hotel and restaur-  
ants for the needs and pocketbooks  
of the visitors seem to have played no  
small part in maintaining the morale  
of the delegates. For this contribu-  
tion of a sizable political asset, the  
party will be grateful.—[Springfield  
Republican.]

### A Festive Occasion.

It looks as if in New York society  
divorce is beginning to rank with mar-  
riage as a social festivity. The thea-  
tre party, after which Elwell, whose  
expert met his mysterious death, was  
in celebration of the granting of a  
divorce and was attended by the di-  
vorcée and also by her ex-husband—  
with another woman. Reminds us of  
the old dance call, "Change partners  
and swing."—[Detroit Free Press.]

### Stealing Edward's Thunder.

Governor Edwards claims the role,  
but we would think Eugene Debs  
would be the real "personal insert"  
candidate in this campaign.—[Rocky  
Mountain News.]

### A Wizard in Oneonta.

Yes, it's truly a wonder. It helps  
little fellows to be somebody instead  
of nobodies and builds them up and  
out of the whining, complaining and  
dependent class. It has been success-  
fully doing this for 31 years and is  
now starting and teaching another  
big bunch of little fellows how to com-  
bine and make small amounts roll up  
to millions of dollars and make rent  
money pay for homes and farms. The  
state and Uncle Sam help and en-  
courage its grand work. It gives all  
a fair chance and a square deal and  
hundreds of Oneonta people are now  
regretting and whining because they  
did not take advantage of its oppor-  
tunities. Well, it's now stronger, bet-  
ter and safer than ever before and if  
they won't see a hole in the ladder  
and get on its new band wagon that  
it is now starting, they must take  
their medicine or should hunt up the  
fool killer. It is the safe and sane  
Oneonta Building and Loan association.

## Consul W. J. Pike Goes to Strasbourg.

A recent issue of the St. Gall (Swit-  
zerland) Tagblatt announces that Wil-  
liam J. Pike, for the past three years  
American consul at that place, has  
been promoted to the third (\$3,000)  
grade in the consular service and has  
been transferred to a new post which  
will be opened in Strasbourg, France.  
Before assuming his new position,  
however, Consul Pike expects to come  
to the United States for a brief visit  
with old friends. He has now seen  
nearly 35 years in the service of the  
government, half of it in Europe, and  
the larger part of that half in Ger-  
many.

Many friends in Oneonta will very  
pleasantly recall Mr. Pike, part of  
whose boyhood days were spent in this  
city, and who on the occasion of his  
too infrequent visits to America, in-  
variably calls on old friends here.

## Republican Women of Otsego.

An enrollment and ways-and-means  
drive combined, will be started in  
Otsego county on July 6th—the an-  
niversary of the founding of the Re-  
publican party.

Mrs. U. G. Welch, vice chairman of  
the county, and Mrs. Harry W. Lee  
of Oneonta, who are arranging the  
drive, have announced that each sub-  
scriber will receive one of the souvenir  
G. O. P. elephants. The movement was  
started at the campaign school held  
in Oneonta last week. It will continue  
for about ten days from the time of  
its start on the Republican "birthday."

The State Armory commission at Al-

the repairs and alterations to the  
Murdock block, now occupied as an  
armory in Cooperstown, as follows:  
Carpenter work and painting, McFee

bing, McEwan Hardware company,  
Cooperstown, \$570; electrical work,  
the Delta Electric Co., Cooperstown,  
\$335. The contracts specify that the  
work shall be completed within 60  
days.

### TROLLEY MEN TO STRIKE

COMPANY REFUSES TO GRANT REQUESTS OR TO ARBITRATE DIFFERENCES.

Men Will Go Out Sunday Morning at 4 O'clock in Accordance with a Vote Taken at Hartwick Last Night. When the Committee Reported Company's Action.

Unless the Southern New York Power and Railway corporation recedes from its position before 4 a. m. Sunday morning the employees of the company will refuse to work and in all probability no car will move on the road.

The following statement was given out late last night at Hartwick by Homer Brazee, president of the recently organized union among the employees:

"A special meeting of Division No. 948, of the Amalgamated Association of Street and Electric Railway Employees of America was held here tonight to hear the report of the committee that has been conferring with the officials of the Southern New York Power and Railway corporation.

"The company refused to grant the request of the men and also refused to submit the matters in dispute to arbitration. The vote of the men, therefore, was to suspend work at 4 a. m. on Sunday, July 5th."

Star readers are familiar with the demands of the men and a summary of the counter proposal of the company appeared in a recent issue. After the counter proposal, which granted less increase than asked, was received, a committee was named to confer with the officials and endeavor to reach an adjustment. This evidently has been futile with the above result.

While it is true that the railroad is not a money making enterprise, there can be no argument of the proposition that the men cannot be expected to meet the present living expenses without a substantial increase in wages. The men asked for an increase, it is asserted, not out of proportion to the cost of living and below the standard maintained in the Mohawk valley and elsewhere about the state. Oneonta will regret to see service interrupted or the project endangered and it is to be hoped that some adjustment can be effected before the crisis now impending is reached.

The road is a valuable adjunct to this section of the state, giving an outlet to the Mohawk valley and is much used by shippers of all kinds of merchandise and of milk to the Nestle and other plants.

While no definite statement could be secured last night, it is assumed that the employees on the local lines as well as the main line are members of the new organization and that service on the city lines will be interrupted as well.

In the event that the strike materializes, it is not improbable that some of the motor buses of the city will be pressed into service and operated to West End at least, although nothing definite can be stated at the present time.

### Missing Boys Cause Uneasiness.

Two young men of Oneonta were the cause of no little uneasiness to their friends yesterday morning. They had gone Thursday afternoon to a camp at Goodyear lake to spend the night, and after supper they started out in a boat for a row on the lake. As they did not return the campers were naturally concerned. It was thought that possibly they had stopped somewhere on the lake for the night and would return early in the morning. As the morning hours wore away, however, without the return of the boys, search was begun and friends of the lads were notified and went by auto as quickly as possible to the lake. Before their arrival, however, the boys were found at a camp house where they passed the night and had not been in a hurry about returning in the morning. For a short time much anxiety was felt in Oneonta by those who had learned of the situation.

### The Season Is Now Open.

A resident of Oneonta to whom the music of the street organ and the bells of umbrella menders and scissors grinders appear to be unwelcome sounds, reported yesterday that the season for these visitors is now open and that "not over 500 pounds can be taken in one day by sportsmen."

The above is apropos of the fact that the first hurdy-gurdy of the year was in town Friday, and as usual it attracted entranced juvenile audiences. As for the umbrella and scissors men, they have for some time been in evidence, and like the organ grinder, they rise readily to silver bait.

### "AEROPLANE FOR SALE"

WHY They Become as Common as "Used Cars for Sale."

Elsewhere in this issue appears an advertisement under the above caption and doubtless it is the first time in the history of Oneonta and Otsego county when such an announcement is made. It will attract more than passing notice even from those who have no knowledge of aerodynamics and no inclination to buy. It indicates the arrival of a new era and it requires no stretch of the imagination to foresee the time when an announcement of this kind will be no novelty and in fact when they will be as frequent or nearly so as "Used car for sale" is now.

It would be a good stroke of enterprise were some merchant or some resident experienced pilot to invest in the machine, should it prove worth the price, and thus put Oneonta on the aerial map. Certainly are long the city should awaken to the necessity of a field for the sky pilots before the available ground in close proximity to the city is all used for other purposes.

The advertisement is suggestive of what the future may have in store and is also indicative of recognition accorded The Star as the foremost classified medium of this section. Who will be the purchaser?

### Summer Students Arriving.

The "advance guard" of students who will attend the summer session at the Oneonta Normal school began arriving in numbers on the afternoon and evening trains yesterday, but today will mark the real influx of girl students, as all are expected to register today. This summer session opens on Monday morning and present indications are that the class rooms of the big building on the hill will be virtually "packed to the doors." The largest number of inquiries on record have been received from prospective students for the past few weeks, and an unusually large enrollment is confidently expected.

### City Assessors Completing Work.

Messrs. Potter and Murdock, city assessors of Oneonta, have practically completed the task, this year exceedingly difficult on account of the unusually large number of changes of ownership, of making the tentative assessment roll of the city. There still remains the work of copying the rolls and making the required copies, after which due notice will in August be given and the books will be open for inspection. It is generally understood that there will be a very considerable increase in assessed valuations, but the figures cannot be known until the books are ready for inspection.

### Brisk Display of Lightning.

The electric storm of yesterday afternoon did little damage in the city that is known. The Oneonta theatre was struck by a bolt and on the corner which is being remodeled one brick was knocked loose but no other harm was done. The incident occurred shortly after the afternoon show was out so no one was near.

### JUDGE REPRIMANDS SCOTT.

Aftermath of Last Month's Shooting Affray Staged in City Court.

Anthony Scott, the shoe repairer, whose two young sons figured in the shooting affray of last June 12, which fortunately resulted in no fatality, was in city court yesterday morning to answer to a charge of violating section 1087 of the penal law, or having firearms in his possession without a permit. Scott pleaded guilty and was given a suspended sentence.

It will be recalled that Joseph Scott, 14 years old, got a bullet through his head when his brother, Samuel Scott, 11, picked up a revolver in his father's shop and fired it. The bullet luckily did not strike a vital spot and the lad was only slightly injured. The bringing of Scott into court was at that time postponed to await the outcome of the lad's injuries.

### Accident on South Side Hill.

About 2:30 yesterday afternoon, an accident occurred on South Side hill, in which no one was hurt, but three cars were damaged to some extent. Frank McDougall, the local meat dealer, was going out of the city when he was overtaken by Minnie Handly, also of Oneonta, who attempted to pass him. In the meantime, another car, belonging to Floyd Scott of Ferrisville, appeared coming down the hill and before the Handly car could pass it hit both the others, inflicting considerable damage. A rear fender of the McDougall car was badly bent, the Scott car had the rim taken off one front wheel and an axle slightly bent, while the Handly car had a rear step and fender broken and the rear axle twisted so that it had to be towed to a local garage.

## FUNERAL OF DR. ECKMAN.

Bishop Wilson Delivers Eulogy on Distinguished Scranton Clergyman.

The funeral services for the late Rev. Dr. George Peck Eckman, whose death appeared in The Star of Tuesday, were held on Thursday at the Elm Park church in Scranton, Pa., of which he had for several years been the beloved pastor. Long before the hour for the service, the streets in the vicinity of the church were thronged with those unable to obtain admission to the crowded church, and who remained reverently outside, waiting to pay by their presence a tribute of respect.

The service was in charge of Dr. H. H. Hartsock. Prayer was offered by Dr. Sprague, principal of the Wyoming Seminary, and there was scriptural reading by Superintendents E. A. Martin of Binghamton and O. M. O'Mara of Wilkes-Barre. Brief addresses were made by Dr. Hartsock and by Dr. McMillen of the New York conference, who has for years a warm personal friend and co-worker with Dr. Eckman in the metropolis. The principal eulogy was by Bishop Luther H. Wilson, who paid a heartfelt tribute to the work and worth of the deceased.

Burial was in the Dunmore cemetery beside his father and mother, Rev. and Mrs. John G. Eckman. The honorary pall bearers were clergymen of the conference and the pastor of the first Presbyterian and the rector of the Protestant Episcopal church of the Good Shepherd of Scranton. The active bearers were nine trustees of the church.

Bayard Bigelow has been promoted to the position of State Agent for City of New York Insurance Co. As a reward for hard work and the result of long technical training in all branches of the insurance work, from office boy to that of a home office executive, Bayard Bigelow of this city, who has for some time past represented the City of New York Insurance company of New York—one of the millionaire stock companies controlled by the Home Insurance company of that city—as special representative covering the Eastern field, has received a greatly coveted appointment for the same company, namely that of state agent, which gives to Mr. Bigelow management of that company's large affairs throughout the state.

Not only is this the source of much satisfaction to Mr. Bigelow's numerous friends throughout the state, but it likewise gives to Oneonta the distinction of having for the first time located within her bounds a company executive of the standing which Mr. Bigelow enjoys in the underwriting field. Besides being an exceptionally well equipped insurance man, he is likewise a fire prevention engineer of no mean repute and is considered one of the authorities upon engineering problems as regards municipal fire protection. **A Normal's Letter Home**

Oneonta, N. Y., \_\_\_\_\_, 1920.

Dear \_\_\_\_\_,  
Arrived here safely and am now nicely located at No. \_\_\_\_\_ street.

Oneonta is just the nicest little city in the state and with the colony of 700 students I am positive my stay here will be more in the nature of a vacation than that of tedious study.

I spent my first afternoon looking over the chief attractions. This, of course, included a visit to the Normal school, which is a handsome building located on a bluff overlooking the city; also a visit to the various parks, of which the city has three—all natural beauty spots. I next visited the business sections, where I observed the most up-to-date stores to be found in any city. Here, too, are located two theatres showing the latest in motion picture plays. Best of all, I found that Oneonta is the home of

I am just hoping that my boarding mistress will serve PURITY ICE CREAM every day. It's on sale at all good places.

Don't worry for fear I will get homesick, as that is out of the question as long as I can get to where PURITY ICE CREAM is served.

Yours \_\_\_\_\_,

P. S.—PURITY ICE CREAM is also sold in all adjoining towns and villages—perhaps in our town. If it is, that's one reason why farmers and villagers don't need to move to the city.
